

Tillamook Landscape Design Ent.
Stony Plain, AB
Sept 2, 2010

Dear Jim,

We have never spent so much time in our backyard since we installed the first half of Jim Carreau's design for an outdoor living space! Every day we see plants develop and mature into the concepts envisioned by Jim. Our space is very low maintenance (no grass mowing!), practical and beautiful.

Jim utilized our existing resources – trees, rocks and barnwood to a maximum, after determining our desired lifestyle for the outdoor space. His huge knowledge of appropriate plants in particular locations within his creative design has visitors asking if they can take photos! We can't wait for our house reno to complete so we can install the second half of Jim's design.

We highly recommend Jim's services to anyone who wants to create a great outdoor living space.

Gerry & Del Tobert
